TRADE PRICE LIST
OF
GRAPE VINES
GROWN BY
J. ELLETON,
AUBURN GRAPE NURSERIES,
AUBURN, N. Y.

FOR AUTUMN OF 1890.

TO OUR PATRONS.

The propagation of GRAPe VINES is our specialty. Sixteen years' experience in this line has developed for us an immense trade, now embracing many of the leading nurserymen and dealers in the country, to whom we refer those not acquainted with our vines.

The advantages of new soil, climate, location and large healthy stock, gives us facilities for supplying vines of extra quality. Our vines are all grown in the open ground, (well prepared), in rows three feet apart, are healthy, well ripened and true to name. We sort up to the highest eastern standard, and purchasers may depend upon a really No. 1 article. See testimonials.

While our prices will be found lower than most reliable establishments, we are quite confident our vines will be equal to the best and superior to most.

We have the satisfaction of stating that in sixteen years' business we have not been notified of but two mistakes.

From our many customers the past season, extending from Canada to Texas, and from New Jersey to Oregon, we have had many letters expressing the highest satisfaction.

Our vines are propagated under our personal supervision during all their stages, which, with long experience, insures a degree of purity in stock not possible to attain under other circumstances.

We grow the vines we sell, and know they are true to name, which will be fully appreciated by the careful buyer.

Packing done in the best manner, and no charge for boxes, packing, or cartage to railroad or express office, where our responsibility ceases.

Please give full directions for shipping, otherwise we use our best judgment. All freight and express charges, whether on goods or money, must be paid by customers.

Express or Post Office orders may be sent at our risk.

We invite a comparison of prices with any reliable list in the United States.

MAILING.—We send vines that arrive in perfect condition to all parts of the United States and Canada, but post paid only at single rates.

SAMPLES.—We will send samples on receipt of price at single rates only, but will add extra vines on receipt of first order. We are obliged to adopt this method for self-protection.

New varieties of grapes will be cut back to the usual length. Three to four good buds, I reserve the right, unless otherwise directed, to fill orders for one year vines with two year vines of same size.

New varieties are a specialty with me, and the utmost care is exercised in producing first-class plants, also in the correctness of names, digging, packing, etc. I give my personal attention to every detail.

Part of my vines are stored in cellars during winter, and can be shipped at any time.

NOTE.—We advise sending vines by Express; we can send more extras in this way than by mail. We guarantee the arrival of goods only when sent by express.

TERMS CASH WITH THE ORDER

Unless we have a satisfactory business acquaintance with you. As for our responsibility, we refer you to commercial reports, bankers, or the principal nurserymen in Western New York.

If to be shipped, collect on delivery, one-half the amount of the bill to be remitted with the order. When shipped in this way, return charges on the money will in all cases be added to the bill. All Exchange and Express Must be Paid by the Purchaser.

J. ELLETON, AUBURN GRAPE NURSERIES, FRANKLIN ST., AUBURN, N. Y.

CANADIAN RAISINS.

The production of raisins in Canada is indeed a new industry. The Herald was shown to-day a fine sample of raising from grapes grown in open air in the city of Hamilton, which were taken from the vines on the first day of October. They were stored in a cool room, where they remained without special attention. It is a matter of surprise to find an article of commerce of so great value originating in Canada. It will not be forgotten that the vintage of 1889 was almost totally destroyed by the extreme frost of the 29th of May last, followed by atmospheric influences favorable to mildew. Notwithstanding the above drawbacks, the raisins shown us are no mean specimens. — The Times. From the Canadian Horticultural.
First Class Grape Vines.

Grown in Fresh, New Soil. Warranted True to Name. Perfectly Free from all Diseases and Well Rooted.

Mr. J. ELLETSON.

The grape vines are satisfactory, and the No. 2 Empire grapes are the best we have received, as a matter of fact, of all the Empire Stock we have ever had. They arrived in very excellent condition, and your liberal extras more than offset the somewhat heavy expenses charges on the whole. Your method in dealing with us puts us under obligation to you.

Mr. J. ELLETSON.

The grape vines have come to hand to day, and I assure you I opened them with a great deal of fear the earth was not hurt. They have passed through the last frost and I had just a box of seedling hawthorns which are so precious to the heart of the entire wood, but your grape came out as fine and nice as with them, and if the others are as good as these I am thinking of your care to the pack the packing. That paper which you put all around them did the work.
